

BetaTest | Panel - Installation Manual

Apple provides the following Beta-testing procedure to circumvent the otherwise necessary App Store.

1. Provision of iPhone ID

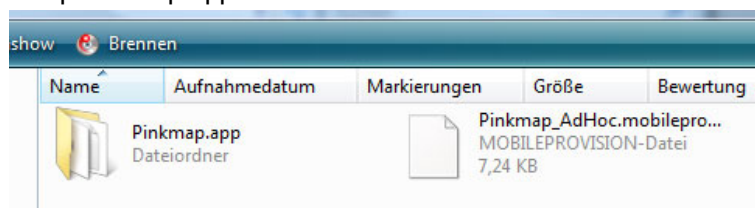

1. Download the BetaHelper App from the App Store (free)

2. Following installation, click on the Email symbol and enter this email address:
dev@locamap.de
The iPhone ID will be sent directly to us...
3. We will then enter the ID into the PinkMap App so that it can function on the corresponding iPhone.

2. Installation of the PinkMap App

1. You receive the new PinkMap App version via Email
2. Save the attached file
(Pinkmap_AdHoc.mobileprovision, Pinkmap.app)
3. Unzip Pinkmap.app

4. Pull data Pinkmap_AdHoc.mobileprovision via Drag&Drop into iTunes
5. Pull the folder Pinkmap.app via Drag&Drop into iTunes
6. Connect the iPhone to the computer and sync with iTunes
7. PinkMap should now be installed on the iPhone and able to run

Have fun testing! Please remember to send any questions or comments via email to dev@locamap.de.
